

# Creating a Web Site using HTML5 and CSS3

## Home Page LUXCars

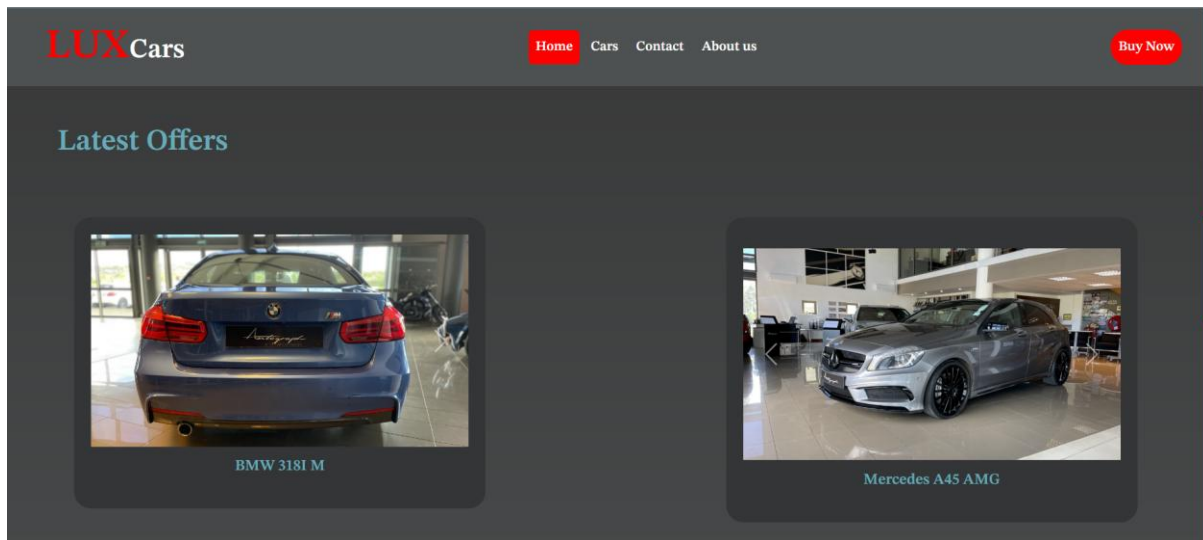

My website is based around the sale of Luxury Cars for the company LuxCars. With the use of html css one javascript and bootstrap and it has already been hosted online.

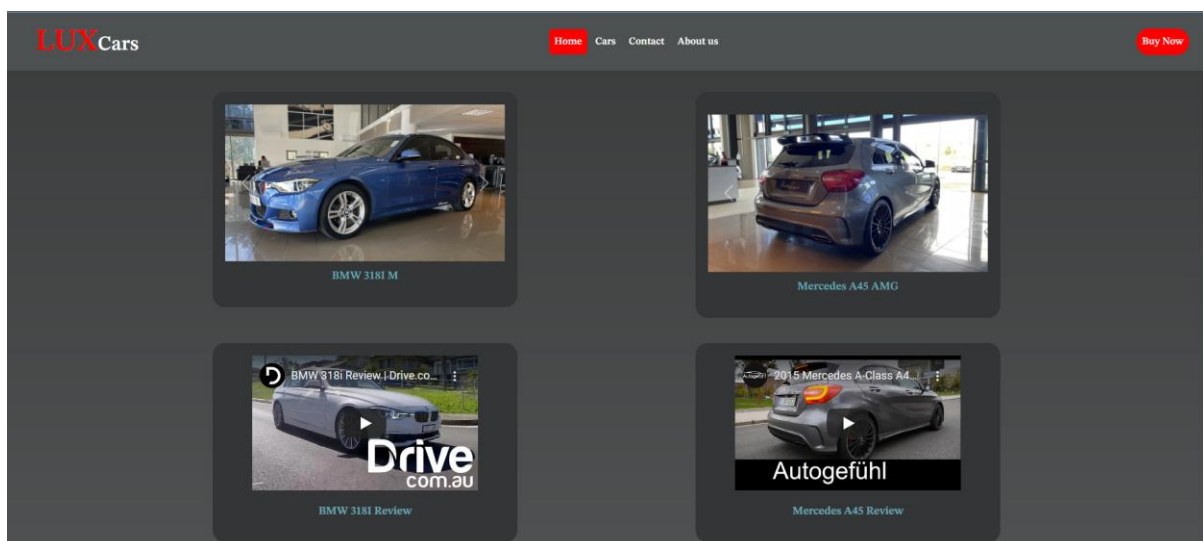

When scrolling below you can see the navbar go from transparent to grey.

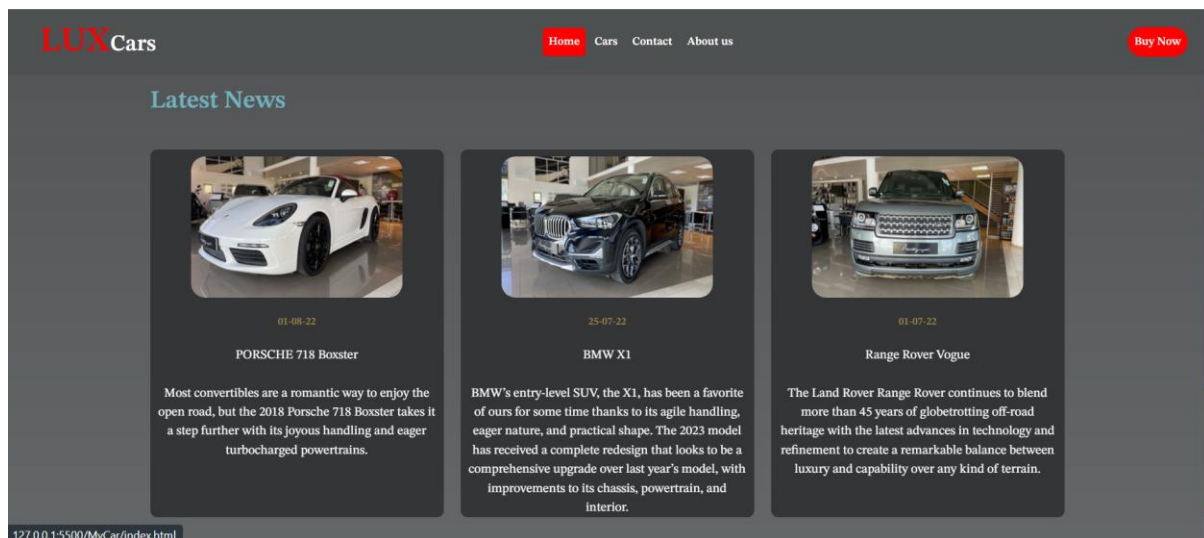

Here we have a section of the home/index page where these two boxes have a carousel bootstrap feature added to them.

Here I have embedded 2 YouTube videos of the two cars represented in the carousel.

I have displayed gained inspiration from other private car dealership websites such as

The Car connexion Ltd (ref. <https://www.thecarconnexion.com/en/autograph> )

Pictures were obtained from them as well as the content displayed on the oncoming pages.

## Porsche 718 Boxster

★★★★★ Stars

The Porsche 718 Boxster's sublime driving dynamics and classic styling make it one heck of a sports car. The Porsche 718 Boxster is a convertible sports car in the classical sense, which is to say it's focused primarily on nimble handling and driver enjoyment. Outstanding handling, powerful engines and top-down fun put this convertible in the pantheon of the world's best. The Boxster gets a 2.0-litre flat-four 'boxer' engine that develops a healthy 296bhp, which is a 35bhp increase over the old six-cylinder model. More impressively, peak torque has swelled by 100Nm to 380Nm and is delivered at just 1,950rpm. With so much torque on tap at low revs, the Boxster feels incredibly quick. It doesn't matter what gear you're in, simply squeeze the throttle and the 718 is catapulted down the road.

Year : 2018

## BMW X1

★★★★★ Stars

The 2020 BMW X1 is a compact SUV suited to those who love the smaller dimensions of a hatchback but with the increased practicality and higher riding position offered by an SUV. Size-wise, the X1 is the smallest SUV in the BMW lineup and this generation provides even more room in the cabin.

The X1 is a fun car to drive, thanks to surefooted suspension and precise steering. It manages to feel expensive while retaining the hint of the agility you'd expect.

The X1's interior is nicely appointed and crafted from mostly premium materials.

## Range Rover Vogue

★★★★ Stars

The Land Rover Range Rover continues to blend more than 45 years of globetrotting off-road heritage with the latest advances in technology and refinement to create a remarkable balance between luxury and capability over any kind of terrain. If you're after a large SUV that will smother you in luxury but is also capable of tackling more than a slippery field, then the Range Rover Vogue should be the vehicle.

The Range Rover Vogue towers over other road users and gives you a level of confidence few alternative SUVs can match.

No other luxury off-roader can tackle adverse terrain better and has more road presence than the Range Rover Vogue. It certainly is the definitive luxury go anywhere vehicle

Year : 2017

## Mercedes A45 AMG

★★★★★ Stars

The Mercedes A45 AMG was, at some point in time, considered to be the world's hottest hot hatch. AMG takes the standard Mercedes A-Class and turns it into a fire-breathing 4WD hyper hatch - the Mercedes-AMG A 45

It was the first performance car from Mercedes' AMG division to use a 2.0-litre turbo four-cylinder engine and four-wheel drive. It enjoys going round corners quickly, instead of simply specializing in straight lines.

The drive feel is sensational offering razor sharp dynamics and impressive cornering along with the capability to eat kilometres.

Year : 2014  
Mileage : 50,643 Km  
Engine Capacity : 1991 cc
